

BIBBY-STE-CROIX

March 10, 2017

MANUFACTURING STATEMENT

To whom it may concern;

All Valve Box and Service Box products supplied to our United States customers are manufactured by Bibby-Ste-Croix, at our Fonderie Ste-Croix facility located in Quebec, Canada.

Canada is a signatory of NAFTA, which is an applicable trade agreement, providing exception to the "Buy America" requirement of the ARRA Act.

Bibby Ste-Croix Valve Boxes & Service Boxes are manufactured to meet or exceed tensile strength to 35,000psi.

Testing to ASTM A-48 Class 35 Gray Iron

Test results are available upon request.

All of our standard products we produce are listed in the attached catalog.

Bibby Ste-Croix uses 90% post industrial re-cycled iron, much of which is purchased in the United States, along with other raw materials used in our manufacturing process.

McWane Inc., the parent company of Bibby-Ste-Croix is headquartered in Birmingham, Alabama, and operates manufacturing facilities across the U.S.A.

Yours sincerely,

Tom Leonard, President
